STANFORD, KY., TUESDAY, AUGUST 30, 1893.

NO. 51

## MT. VERNON.

Scholarships for the Institute will be awarded next Saturday.

The W. C. T. U. will meet with Mrs. Dr. A. G. Lovell next Saturday.

Five men fainted last Tuesday at Mr. Scott's rock quarry and lime kiln.

Bro. R. Gibbs Maxey, of Lexington, will preach at Maresburg next Sunday.

I. McKinney has sold his residence to W. M. McClure and will move his family to Georgia.

Mrs. Sallie McClure Shepherd, of Paris, died of consumption at the home of her father, Mr. Sam McClure, near here. Mrs. Shepherd was 25 years of age, a loving wife and mother. She leaves a husband and two children to mourn her loss.

Miss Berda Martin's school at Gum Sulphur is well attended. The patrons are greatly pleased with their handsome young teacher, who won the prize offered at the Teacher's Institute by Prof. Grinstead for the best deportment and attendance.

Misses Mattie and Lena Newcomb entertained a large number of their young friends last Tuesday evening. Miss Fannie McFerran, who teaches at Oak Hill, visited friends here last week. Miss Fannie is one of our most progressive teachers. Miss Georgia Miller has returned from a visit to Frankfort and Mr. Sterling was accompanied by her sister, Mrs. Geo. McCoy, and Miss Mary Smith.

The improvements being made on the streets are very gratifying to the citizens, but there seems to be a lethargy about the town that is unpropitious to business. The cause of this we can not tell, but good citizens are leaving Mt. Vernon to locate elsewhere and none are coming to take their places. This should not be the case; to make a town prosper we must endeavor to retain instead of drive away the present population. One man working against the interests of a community can do more to injure it than the efforts of a dozen good men can avail toward its upbuilding.

Mrs. Tillitha Gresham is visiting her sister, Mrs. F. L. Clifford, in Virginia. E. E. Protheroe, of Brodhead, was in town last Saturday. Miss Bessie Paynter has been ill. Mr. and Mrs. W. M. Weber have returned to Chattanooga. Misses Mary Fox and Katie Linton visited relatives here recently. Mrs. Dr. Steve Brown, of Texas, is here visiting relatives. Mrs. W. B. Smith has been quite ill. Mr. L. M. Hook expects to move his family to town next week. Jack Lawrence came home from Sinks last week. Miss Alza Logan Brown expects to attend school at Stanford this term. M. J. Miller has opened his store in the store-room near the Miller Hotel. Mrs. Fannie Adams is the guest of Mrs. B. J. Bethune during her convalescence. Willie McClary expects to attend a medical college in Nashville.

After a slow decline of many months duration Mrs. Patience Carpenter died at the home of Mr. and Mrs. Wm. Weber, at Chattanooga, Tenn., Aug. 23, aged 73 years. All the tender care of which loving hands were capable had been lavished upon her. Since the death of her husband, H. H. Carpenter, she had looked forward to this time saying she was going home. These words give an insight into her Christian character, which was as a shining light to others, who traveled along life's pathway with her. She bore malice toward no one and if she had any enemies, they were secret enemies, but who could be at enmity with one so pure and good. She was blessed with the physical comforts of life, her husband being the wealthiest man in the county at the time of his death. Her remains were brought here to the home of her friends, Mr. and Mrs. W. M. Paynter to await interment. Funeral services were held at the Christian church. Bro. I. M. Boswell preached a most impressive funeral discourse while Misses Lena McClure and Mary Miller helped materially with the music which was very touching. Loving friends carried the remains to the cemetery where they were placed beside her husband. One child, Mrs. W. M. Weber, lives to mourn her loss.

## THE BEST REMEDY FOR FLUX.

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me. For sale by Craig & Hoeker, Druggists."

Dun & Co.'s review says: "The volume of business reflected in exchanges at the principal clearing-houses is 20.4 per cent. larger than last year and 26.8 per cent. larger than in 1892, heretofore the year of largest business and highest prosperity ever known."

Low rates Cincinnati, Queen & Crescent during G. A. R. Encampment, Cincinnati.

Rev. John Barbour conducted services at the 2d Presbyterian church Sunday morning.

Rev. G. W. Muckley, of Kansas, preached at the Christian church Sunday morning.

Scott Hudson has been quite successful on the circuit this year. Last week he won \$3,000 at Dubuque.

Messrs. Boyle, Rodes, W. C. Price, Dr. March and Will Woodcock went down near Perryville last week and shot over 200 doves.

The republican congressional convention, which meets here Tuesday, will in all probability nominate Mr. Davidson on the first ballot.

Danville friends are delighted to hear of the appointment of Dr. James W. Guest as instructor in surgery and clinical surgery and Dr. Ed Green as instructor in the Principles and Practice of Medicine.

The Young People's Christian Endeavor of Danville, composed of the different societies of the churches, was held at the 2d Presbyterian church Sunday evening. Papers were read from each society and short talks made by the pastors.

Quite a number of Danville people saw the Grand Naval Parade in New York City. Messrs. Arch and Alfred Robertson, J. K. Bishop, G. H. Bruce, W. S. Smith, G. E. Wiseman, Frank Lee, Mr. and Mrs. Cliff Anderson and Misses Sadie Cecil and Mary Robertson.

Prof. J. S. Gashwiler, who has been teaching for some time, will next year farm in Lincoln county, near Crab Orchard. Mrs. Emma Cecil is at Martinsville, Ind. Miss Lillian Bohon is visiting her uncle, Rane Bohon, at Decatur, Ill. Rev. J. R. Savage returned Friday from Jessamine. Miss Josie May McGowan has returned from Winchester. Caldwell and children, who have been visiting his mother, have returned to their home at West Point, Miss. Miss Pauline Hardin, of Springfield, is the guest of Mrs. Robert Harding. Miss Belle McGrath has been visiting friends in Georgetown. Arthur Van Winkle entertained a few gentlemen friends at 6 o'clock dinner Wednesday evening.

## LETTER FROM JACKSON.

In reaching Jackson over the Lexington and Eastern the scenery is fine, great massive rocks standing 75 feet perpendicularly on either side. The mountains are also filled with wild and fragrant flowers and added to these material beauties, nature has wisely added an abundant amount of pure water. Summer resorts are numerous and seem to be largely patronized. In addition to those pleasures and wild attractions, the country is fairly prosperous, crops are good, though the acreage is small. The chief industry is confined to lumber, spokes, staves and other things along this line. The little city of Jackson is located on the north fork of Kentucky river, which passes on seven miles and doubles back again within 100 yards of Jackson and were it not for a huge cliff one might easily throw a stone from one part to the other. Music on the water in little boats is a chief amusement here being performed by the young people from 6 P. M. to 8. It is rendered with culture and skill and shows that wonderful talent exists also.

J. W. PERRIN.

Nineteen Cynthia society girls caused a sensation by appearing in the streets of Cincinnati and at the Lagoon with placards on their bosoms bearing the inscription: "We are out for a good time." The young women had been making a tour of Niagara Falls and the Great Lakes. Returning from Toledo they kept passengers awake, held up the newsboy and worried the conductor. The young ladies evidently need their mamma's hold of them.

In his announcement for circuit judge in the London district, Hon. John Henry Wilson makes a bid for the laboring man's vote thus: "When a member of the State Senate in 1886, I was the author of the resolution by which the convicts, then working in the coal mines were taken out of the mines and put back into the penitentiary." The primary will be held Sept. 17. Brown and Everole are the other candidates.

Miss Arnold, who kissed Hobson, has had named for her, a walking hat, new style of shoe, stationery, perfume, a new drink, others to be named, hair ornament, girdle, another hat, a skirt, golf costume, bicycle suit, a sailor hat and a cravat.

## NEWS IN THE VICINAGE.

Ed Clouse was acquitted of the murder of W. B. Tracy by the Garrard court.

At Lancaster, John Shanks, alias "Monkey John," was given two years for horse stealing.

The Model steam laundry at Harrodsburg burned, causing a loss of \$5,000, with very little insurance.

Rev. Ira Partin, of Preachersville, has traded his farm on Lick Creek to James Moore, of Pineville, for a hotel there.

Burglars got in the Perryville post-office Friday night but finding nothing they wanted, departed. A hat was left by them.

The list of claims allowed by the fiscal court of Madison takes a sheet as large as this paper to print it and the total is \$28,067.82.

Richmond will have a good school building for the colored school. The contract has been let for brick building to cost about \$7,500.

Reuben Reynolds, aged 68, died near Brodhead of heart disease and after a funeral sermon by Eld. J. G. Livingston Sunday, the remains were laid away in the presence of many weeping friends.

The discovery of the dynamite prevented the blowing up of the jail at Pineville. James Surber hired a man to bring to his cell the explosives and he was going to place them in a crevice of the wall at midnight and blow up the jail. A felony warrant was issued against Surber for the attempt to blow up the jail.

Badge Jones, of Clay county, is in jail charged with having furnished the dynamite.

A great many people are puzzled to know the definition and origin of "round robin," the term used so frequently of late in connection with Gen. Shafter and the Santiago army. It is the name given to a protest or remonstrance signed by a number of persons in circular form, so that no one is obliged to head the list. It thus places all on an equal footing and hides the identity of the leader of the signers. It is frequently resorted to by collegians who have a grievance that they desire to have investigated and, fearing the wrath of the professors adopt it as a method of bringing the alleged grievance to the notice of the faculty. It originated in France.

The further South one goes the earlier one finds marriages take place. A census was taken lately in Algeria, and it was found that the youngest Arab married man was 12 years old, and that there were very many boys who were married at 13 and 14, while some at 15 had several wives. There is a youthful Algerian widow of 15 and a divorced husband of the same age. Girls are still more precocious, and are sometimes married when only 11 years old, though 12 is the more usual age. There are 180 widows of 15 and 1,176 divorcees of the same age.

An Indiana grocer prints the following in a circular, addressed to patrons: "Notice is hereby given that if you will come to my store three times a day during the next year and purchase a drink of whisky each time paying 10 cents a drink, at the end of the year I will donate five barrels of my best flour, 100 pounds of fine granulated sugar, 100 pounds of rice, 10 pounds of coffee, 10 gallons of syrup, 50 yards of calico, three pairs of shoes, one \$10.50 cloak for your wife; and then I will have \$20 left to pay for the liquor you drank."

A western teacher in a town in which the women have the right of suffrage received the following note accounting for the absence of one of her pupils on election day: "Dere Teacher: Please be so kind as to excuse Lizzie for not having went to school yesterday. I kep her home to mine the baby while I give out votes at the poles an' otherwise done what I could to elect the right man, who, as you will see, by the morning paper, got there by a big majority. So I am glad I kep' Lizzie home an' done what I could at the poles."

## POLITICAL POINTS.

F. H. Bristow has been appointed postmaster at Elkton.

The republicans nominated W. M. Donaldson for congress in the 6th, but Berry will doubtless read his title clear again.

Congressman J. W. Bailey was unanimously renominated at Sherman, Texas, on a platform which declares that the State convention has no right to instruct its representatives in Congress on the question of expansion or any other question of national policy.

Congressman Joe Bailey in opposition to the annexation of the Philip plines, in a speech the other day, said that the annexation of the various colonies under consideration would cut off from tariff duties at least \$60,000,000 and that this amount would have to be made up by internal taxation.

Mr. Watterson strikes centre as follows: If ever there was a lucky, mis-managed war the one just ended was such a war; and yet, excepting the secretary of war, who is simply an incompetent type of the average republican professional politician, who has only been found out and who will be duly unloaded, the jack rabbit republican administration comes out of it with flying colors. This is owing neither to its merit, nor its ability. It is sheer good fortune. But it has been largely helped along by incompetent democratic leaders, illustrating the old saying about an army of lions led by a sheep.

Referring to the auditor's threat of refusal to pay the expenses of the election commission, the Carlisle Mercury says: We wish the auditor would carry out his threat and thus strengthen the hands of the democrats when they come to discuss the State issues next year. We will be able to show and prove that the present State administration has been the most shameful one for years, and that the State has lost money by its existence, and that Auditor Stone has paid money out of the treasury without warrant of law, and has driven a low contractor out of the State's service and placed the State's work in the hands of a higher priced contractor. Brother Stone will find Jordan a hard road to travel.

## MATRIMONIAL MATTERS.

There are 25 divorce cases on the circuit court docket at Henderson.

Edward Lee Meader and Miss Bessie Morris, of Perdue, each 15, were married at Hopkinsville.

James T. Aker and Miss Fannie Singleton, both of the Waynesburg section, were married yesterday at Jonathan Aker's.

Nelson B. Converse, aged 70, and Minnie Trotter, 15, eloped from Breathitt county to Jeffersonville in a rickety buggy and were married.

Mrs. Harriet Scott, who has been three times married to James Scott and twice divorced from him, has brought suit for a third divorce at Muncie, Ind.

M. M. Dickerson and Miss Lena Devore, the pretty daughter of William Devore, proprietor of the Richmond Transfer Line, eloped to Shelbyville and were married.

Hon. and Mrs. George R. Burgess, living near Catlettsburg, celebrated their 62d wedding anniversary. There were present 62 children, grandchildren and great-grandchildren.

Two of Cervara's officers have fallen in love with American girls and their engagements are announced. The ladies are Miss Clara Duff, of Baltimore, and Miss Mamie Hays, of Annapolis.

Mrs. Mattie B. Dietzman has sued Miss Leonora F. Mullin, a stenographer, for \$5,000 for alienating the affections of her husband, Will M. Dietzman, who is business manager of the Sunday Critic.

After having the girl jerked out of his buggy by the irate father, who did not want him for a son-in-law, Bruce Wade succeeded in getting Miss Dean in his possession again and flying to Jeffersonville made her his own for good. Both live in Mercer county.

This is said to be the height, weight and measurements of a perfectly formed woman. The young lady who will certify that she fills the bill and will notify this office will receive a handsome prize: Weight 135 pounds, height 5 feet 4 inches, bust 36, waist 25, hips 37, thigh 25, calf 14, ankle 8, hand 6 1/2 and foot 4 1/2.

James Allen, of Logansport, Ind., mistook his son who came in late at night for a burglar and shot him. The bullet did not hit the young man, but the narrow escape made such an impression on the young man that he joined the church the following day.

George Wagner, alias Whitney, who robbed the Richland, Mich., bank of \$52,500, was captured in Chicago after a desperate struggle.

It costs the Royal Baking Powder company something like \$500,000 annually for advertising.

# THE INTERIOR JOURNAL

STANFORD, KY., - AUG. 30, 1898

W. P. WALTON.

Democratic Nominee For Congress.  
**HON. G. G. GILBERT,**  
Of Shelby County.

THE trail of the serpent of incompetency or venality seems to hang over the army, whether on land or at sea. The stories of suffering, privation and death of the flower of the earth from inhuman neglect and carelessness are almost past belief and call for the most searching investigation and the most condign punishment when the blame is fixed. At Camp Thomas, Camp Alger and Camp Wikoff the brutal treatment of the men by incompetent surgeons and heartless attendants seems to have been the same, the sick and dying men being accorded no more attention than so many hogs. Fever patients at Camp Thomas were allowed to lay and actually rot from neglect. For days not even their faces were sponged off and with myriads of flies swarming on those who were too weak to keep them off, maggots soon hatched in the skin cracked open by burning fever. No nourishment save the rough army rations was given them and if friends sent delicacies the fiends ate them up in full view of the famishing patients. On the hospital ships, especially the Olive, the same treatment was accorded the sick, the beasts in charge of them, letting them die while they drank the champagne and sold the ice cream furnished by the Red Cross. Notwithstanding all these hideous charges, Adj. Gen. Corbin says none have come officially to him, but he will have them brought before him by the people, who are demanding loudly and long for investigation and punishment in every proven case of willful neglect and fiendish brutality.

It seems almost incredible, but the records show that in the last six years there have been 300 homicides in Louisville, most of them murders, and not a single infliction of the death penalty, the heaviest sentence in the whole time being for 21 years, and that in only one case. One Negro was sentenced to be hanged, but he has gotten a new trial. Public sentiment is being aroused over the appalling state of affairs, which has caused the mayor, board of safety and criminal judges to confer and decide upon a crusade against crime that will put a stop to the conditions. Louisville papers hold up murder in the mountains to holy horror, but a little missionary work at home is in order before they do so or it will be a real case of the pot calling the kettle black.

OSCAR TURNER, who is a son of the late "old outlaw" of the same name, who served several years in congress, carried everything before him in the Louisville primaries Saturday, getting 204 of the 222 votes to which the 5th district is entitled. Race Horse Williams, who showed his brutish instincts by assaulting Mr. McKee, who opposed him, got the other 18 and Dr. S. Atwood Smith was left without even a smell. If Turner could now make his election as sure and as easy as he did his calling, the Louisville district would cease to be represented in congress by a republican, but there's the rub. We fear he is hardly heavy enough to give Evans the throw down, we should like to see him get.

THOUGH Davison got the instructions of Shelby by the tricky work of the postmaster of Shelbyville, a dispatch from there says that a delegation will go to Danville to oppose Davison's nomination and failing will put the seal of their condemnation on rascally machine methods by voting for George C. Gilbert. There is great dissatisfaction against Davison's methods also in Rockcastle and the gray gelding has a hard row to plow most everywhere. Those that he has put in office and others for whom he has gotten pensions are alone his warm supporters. The better class take no stock in him.

EDITOR PAT McDONALD, of the Frankfort Argus, is a receptive candidate for the Legislature on the platform of an appropriation for new capitol buildings. Mr. McD. has had much experience in legislative affairs and is a capital man any way you take him, but isn't taxes high enough now without agitating the question of new public buildings at present?

POPULISTS as a general thing are impractical and visionary, with little real idea of statesmanship. A convention in Indiana has just indorsed Lt. Hobson for the presidency, without considering that a man may be brave enough to blow up a vessel and still not know the first principles of government.

THEY had a monkey and parrot time in the republican convention at Owensboro. The Jolly and Fowler factions both held conventions at Owensboro at the same time in the same room, and chose delegates, but the threatened and hoped for fight did not materialize.

DAY, late Secretary of State and now one of the peace commissioners to meet in Paris, has been skinning up the ladder of fame pretty lively since McKinley discovered him and thrust him upon a waiting world. A few short months ago, nobody knew, except a few people in Canton, O., that there was such a man. Now his name is known in every country. His greatness has been thrust upon him entirely. He was neither born great nor has he achieved greatness by the regular channel. In fact, he is a very mediocre man, who owes his rise to McKinley and good fortune.

DAVISON secured the instructions of all the counties, except Jessamine, and will be nominated for congress at Danville today on the first ballot. The Jessamine rads instructed for Miles and named a strongly anti-Davison delegation, but that county will not be able to do in the republican convention, what it did in the democratic convention—down the leading man. Davison has always had the good sense to know exactly when to strike, but if he persists in running this time, he will lose his reputation for anagosity, and be heard of no more forever.

AFTER they found out that they had to give up their places at the penitentiaries, the officers sought to continue to aid their favorites by ordering a great many supplies to be shipped after they departed. The new commissioners are averse to this sort of business and are refusing to accept much of the stuff that is coming in. The report of the expert that the chair plant had not paid the contract price of 35c a day for the convicts, but only 25c, is the subject of much unfavorable comment and the old commissioners will attempt to disprove it by an investigation of their own.

WHEN a young and beautiful woman impressed her rose red lips on Hero Hobson's a general sensation of the yum yum feeling went around the country, but when old women and others rushed onto Commodore Schley and kissed him noliens volens, a sort of a sea sickness pervades the system. Schley is an old married man and those who kissed him are old enough to know better, and the case being altered alters the case very materially.

JUDGE W. W. JONES, of Adair, seems to have won the republican nomination for appellate judge in the 3d district over Hon. C. W. Lester. He has 82 votes certain and possibly enough out of the unreported counties to give him the prize on the first ballot. Lester only carried Anderson, 6; Pulaski, 18; Shelby, 10, and Whitley, 16, a total of 56 votes.

THE court martial convened to try Capt. Duncan, of the 22d Kansas regiment, for robbing the grave of a Confederate officer at Bull Run, gave him a sentence of five years in the penitentiary. He ought to have been shot but as death is not the penalty for the offense, the sentence fits the case pretty nicely.

THE prohibition party of Kansas has adopted the sign of a pitchfork and broom as its emblem. Ex-Senator Peffer is a candidate for the nomination for governor. Both of those implements will doubtless be needed to get rid of the carcass after the election.

THE republican county judge of Hancock has ignored the election law and appointed officers himself. He should be prosecuted and bounced as quickly and as surely as if he tried to nullify any other law.

EDITOR SQUIRE TURNER, of the Mt. Sterling Sentinel-Democrat, is spoken of as a candidate for the democratic nomination for governor. He is a good man and besides it is time the editors had a chance.

While addressing the Old Settlers meeting at Wingate, Ind., ex-Gov. Claude Matthews was stricken with paralysis of his entire right side and died Sunday.

## WAR ECHOES.

Bids will close at noon Sept. 1 for 3,000 cords of seasoned wood, 735,000 pounds of oats, 500,000 pounds of hay and 210,000 pounds of straw, required for 60 days at Camp Henry Clay, Lexington.

Capt. John Green Ballance, who mustered soldiers in at Lexington, has now been appointed to muster out at the same place those that the war department decides upon.

The town of Guantanamo, in which there are 7,000 Spanish prisoners, is in danger of extermination by disease. More than 1,000 prisoners are sick, and the whole population is suffering.

A special train of nine Pullman sleepers passed over the Q. & C. road, carrying 138 sick soldiers from Chickamauga. The soldiers were all from the First Maine regiment and were en route to their homes.

There was only one democrat in the war against Spain and he is the only soldier against whom charges of some character have not been preferred. The democrat was bully old Joe Wheeler.—Cynthiana Democrat.

The relations between Great Britain are strained to the point of rupture, and the British minister at Pekin has announced that China's refusal to observe Great Britain's demands will be accepted as ground for war.

The peace commission will be composed of Secretary W. R. Day, of Ohio; Senator Cushman K. Davis, of Minnesota; Senator W. P. Frye, of Maine; Justice E. D. White, of Louisiana, and Whitlaw Reid, of New York.

D. H. Breck, the young Richmond man, who acted as clerk for mustering officer, Lt. Vestal, when Capt. Penny's Co. was taken, has accepted the position of chief clerk of the division of Gen. Sanger's headquarters at Lexington.

The Czar of all the Russias asks the great powers of the world to unite in an international conference and devise means to secure universal peace. He desires to end the progressive increase of armaments that are crushing the life out of powerful nations.

Invitations have been sent to Confederate generals by the committee of invitation and reception for the approaching meeting of the G. A. R. in Cincinnati. Many have expressed their regrets in patriotic letters. Gen. Wheeler says he is too busy caring for the 15,000 men at Montauk Point.

The monitors Puritan, Terror, Miantonomah and Amphitrite and the cruiser Montgomery have been ordered from Porto Rico to Newport, R. I. The men on the monitors have suffered greatly from the tropical heat owing to the lack of deck accommodations.

Secretary Alger says: "I do not intend to order an investigation of the wholesale charges of mismanagement of the war but propose to stand on my record. If the president or congress desires these charges investigated I would be delighted to have the administration of the war department made the subject of the most searching inquiry."

A dispatch says that the so-called surgeons at Chickamauga held many autopsies "in the interest of science" without the consent of the victim's people. A few days ago the body of a soldier who died of meningitis was taken in to Chattanooga. When the body was uncovered it was found that the man's skull had been lifted and that his brain had been taken out and replaced with a handful of hay. His intestines had also been removed and the stomach filled with hay.

President McKinley is a Sir Knight and will attend the triennial convocation of the Knights Templar in Pittsburgh.

A Paris man killed his wife for the

insurance on her life, but remorse caused him to commit suicide before he got the money.

Martin Irons, the leader of the great Gould strike in 1886, is ill with fever in a charity hospital at Little Rock. He is not expected to live.

At the annual reunion of the Burton family at Mitchell, Ind., it was shown that the family numbers 80,000 in the United States, 10,000 of whom live in Indiana.

Arch Edmonson, one of Montgomery county's best citizens, is dead of blood poisoning. One of his hands was slightly cut on a scythe and the trouble at once set up.

A fire in Cross' menagerie burned to death four lions, a tiger, a puma, a jaguar, 28 prairie marmots, a black opossum, two hyenas, a vulture, four rare foxes, two Virginia owls and two eagles.

With the most terrific right-hand punch ever seen landed on a man's jaw in Louisville, "Australian" Jimmy Ryan, in the 14th round, settled the vexed question of title supremacy which has so long existed between him and Bob Douglas.

At the Knights of Pythias meet in Indianapolis it developed that the funds of the endowment rank are in a bad shape, over \$100,000 being tied up in a Texas bank and \$100,000 in the bonds of the Lexington Hotel Company of Chicago.

A minute before the hour set for the execution of John Anderson, the murderer-mutineer, at Norfolk, Va., an officer arrived with a writ of habeas corpus, granted because he was not permitted to choose his own counsel.

Cheapas it is, coffee will be even cheaper. The finest coffee in the world is grown in Puerto Rico, Cuba and the Philippines, and under the stimulation of American enterprise these countries will, within a few years, be able to supply the world with coffee. Americans are the greatest coffee drinkers in the world, the average being 12 pounds by each man, woman and child per year.

## Railroad Rails for Gun Protection.

The war department is working on a new method of protecting gun emplacements as a substitute for masonry and concrete. An experimental emplacement is being erected at Fort Washington with a protective shield of worn-out railroad rails. This work is within range of some of the ten-inch guns which constitute a part of the Potomac river defenses at this point. A test will soon be made on the efficiency of this type of protection against heavy projectiles.—Scientific American.

## Steam Power in England.

The working power of steam-driven machinery employed in Great Britain is estimated to be equal to that of a billion of men. In all the world less than half that number, counting both sexes, are employed in productive industry. The gray slave, steam, is doing more work in our motherland alone than is being done by all mankind.—Youth's Companion.

## Good Times Ahead.

Biggs—Yes, business has been pretty rocky of late, but I anticipate good times in the near future.

Diggs—Well, old man, I'm glad for your sake, but I'm afraid there is no such good luck in store for me.

FARMERS.—Return our sacks at once or else you will have to pay for them. J. H. Baughman & Co.  
THE Stephenson scaffold and enclosure are being torn down, but the lumber has not yet been sold.  
FINED.—Percy Stewart, a colored boy, was fined \$4 in Judge Carson's court for swearing on the street.  
LUMBER.—Framing, boxing, fencing, shingles, boards, wire plank and mortice fence post. H. J. McRoberts.  
JOHN BAPTIST is the name of a gentleman who registered at the St. Asaph last week. He is a Baptist preacher.  
BRASS KNUCKLES.—George Owens, colored, for striking Green Gill, also colored, with brass knuckles, was placed in jail Saturday night.  
SWEAGLE'S Little Giant axle cutter is the greatest invention yet. Ask S. H. Baughman, Mack Bruce and others who have seen its work, about it. J. H. Greer.  
SEPTEMBER 24th is the last day for filing claims against Lincoln county. All claims filed after that date will be carried over till next year. George B. Cooper, clerk.  
RUFUS WILBURN was arrested and brought here from Crab Orchard Saturday afternoon by Marshal Shannon, of that place. He is a white man and is charged with adultery.  
MISS ANNA MILLER, of Lexington, will speak on temperance in the interest of the W. C. T. U. next Saturday evening, Sept. 3, at 8 o'clock at the court house. All are invited.  
HELD OVER.—Ben McCormack, colored, for stealing chickens from Joseph E. Wright, of Millersville, was held over to circuit court in \$150 at his trial Friday. He failed to make bond.  
If you want to hear a tale of woe and listen to a hard luck story, ask the average man for a debt he owes you. It is pitiful, as well as provocative of profanity to put these prevaricators to expatiating.  
We forgot to state at the time that Edward Hubble, of the McKinney section, got the \$5 for dying the highest kite at the Hustonville fair. The premium was given by J. L. Frohman & Co., of Danville.  
LAST HOP.—Manager Gus Hofmann, of Crab Orchard Springs, telephones us that the last big hop of the season will be given Wednesday evening, 31, and invites all our young people to come and enjoy it.  
THE new Hustonville Fair Association declared a dividend of 25 per cent, which is a most excellent showing. The officers and directors are to be congratulated for the businesslike way they managed the whole affair.  
NINETY-TWO.—One of the managers of the Louisville colored excursion Sunday, E. H. Farmer, tells us that he sold 92 tickets from here at \$1.75 for the round-trip and that the train went into the city with over 100 on board.  
OUR streets are in a fearful condition and the mooted question as to whose business it is to keep them in repair, the town or county, should be settled and work begun on them at once. It is dangerous to drive faster than a walk over East Main Street.  
CAUGHT.—James Roberts, who was indicted two years ago for disturbing religious worship, was arrested near Kingsville by Edmond Murphy Wednesday and brought to town. He asked an immediate trial and was fined \$20, which he is working out.  
GREAT CHANGE.—Having secured a lucrative position with J. P. Jones my customers will now find me there. Thanking them for their support in the past, I still ask a continuance of the same. Any orders left to my care in either branch will have my prompt attention. Kate Dudderar.  
If those who are pulling at the public test had been taken out and the turncoats excluded, there would hardly have been enough republicans on hand Saturday to have presented the cut and dried resolutions. Only republicans for revenue only take much interest in politics in this county.  
THE 5th Illinois Regiment crack band will accompany the Lexington Odd Fellows to Linnets tomorrow, 31st, and will furnish music for the dance both day and night. All the Odd Fellows in this section are invited and many will go. The Leader says that during the day a prize will be given for the best cake walker and already several society young men have entered for this contest, which will prove to be an interesting feature of the day's program.

BRICK.—Walter Greening has begun operations in his brick yard here again.  
A. A. BASTIN has been given another increase of pension and now draws \$30 per month.  
FINE assortment of tooth brushes just received, to be sold at ridiculously low prices. Craig & Hocker.  
THE trial of Wm. Wren for toll-gate raiding was still on at Lancaster, when we heard from there yesterday.  
D. P. HALL has a rare collection of old stamps, ranging in value from one cent to \$3, which he expects to realize a fortune out of.  
FIVE DAYS.—Nannie Kendrick, familiarly known as "Cake Walker," was fined \$5 in Judge Carson's court Saturday for cursing and abusing Susan Baughman, also colored.  
TWENTY-FIVE YEARS ago the cholera was raging here, so Hort Hayden recalls, who tells us that on the 29th of August, one white and six colored persons died of the disease.  
THE Spencer Courier says all the country newspapers should cease to do business with Geo. P. Rowell & Co. We didn't suppose that any of them were fools enough to do business with the sharks.  
EDITOR JAMES MARET in a three-column write-up in the Signal of Crab Orchard's business men and the town in general, shows very conclusively that he is badly "struck" on the metropolis of our East End.  
THE colored INTERIOR JOURNALS can't find a team to play them. They had an engagement to meet the Danville base ball club at Bryansville Saturday, but that club failed to show up. They also went to Louisville Sunday but couldn't find a team that would tackle them.  
It is a remarkable fact that all the speakers at the republican convention here Saturday are turncoats of the basest kind. Each sought office from democrats and failing to get it, went over to the enemy, and now are the loudest bawlers of the lot.  
THE Central Record is kicking like a bay steer, because electric lights are not run all night in Lancaster. It seems to us that Bro. Landrum, who knew nothing better than a tallow candle until a year ago, ought to make out on half rations of electricity.  
THE Texas State Journal continues to send out notices of vast estates left by people, who have no heirs there. The last tells of the murder of Amos McQuiston, who left a large landed estate, which may be of interest to the Gates and Renfro families of Kentucky.  
WATERMELONS were never as cheap and as plentiful as now, a large one selling at only 5c. The season has been most auspicious for all crops and the husbandman's heart ought to be happy at the prospect of having to build additional barns to hold his grain.  
GRAVES.—Mrs. M. A. Graves, half sister of Mrs. Mary Penny, died in Lexington Sunday night about 11 o'clock, aged about 68. Her death was due to paralysis and Mrs. Penny was with her during the several days of her extreme illness. Mrs. Graves was a member of the Christian church and died in the fullness of glorious hope.  
A CUT in shirts was precipitated yesterday between Severance & Sons and the Louisville Store, which made things lively for a while. Each began to cut until a good shirt could be had at either place for 15c and a fair one for 10c. Men who happened to be around rushed in and not until both stocks of the kind had been exhausted did the fun end. The Severances disposed of between 75 and 100 and the Louisville Store about 125.  
RUSSELL SPRINGS FAIR.—Sheriff Sam M. Owens, who attended the Russell Springs fair, tells us that the first exhibition of that association, which will be a permanent one, was all that could have been expected. Good stock was on hand and the Russell county people were untiring in their efforts to make everybody have a good time. Large crowds attended each day, that of Thursday being estimated at 4,000 to 5,000. As usual Lincoln county was "in it" and a number of blue ties were awarded those of her citizens who took stock there. Sheriff Owens won the premium for the best and fanciest turnout. He drove John Steele Carpenter's handsome pair of bays and was accompanied by Miss Cora Kinnaird, a Metcalfe county beauty. Mr. Carpenter also took a half dozen or so ties on his fine horses. C. C. Carpenter, also of the West End, got most everything he showed for and Dr. Hawkins Brown got three "sleek" ties on his buggy horse. The speed races did not all fill, but county trotting and running races and mule races were substituted and proved both interesting and enjoyable. Mr. Owens thinks the association will declare a big dividend.  
Rev. W. C. Sharp, who spent one night in Glasgow this week, had just come from a meeting he had held at Lewisburg, Tenn., with 65 conversions.—Times.

**CHURCH CHATTER.**  
Four protracted meetings in progress in Garrard county, are drawing the ungodly to the fold.  
Rev. L. H. Echols, for 29 years a Baptist preacher, joined the Christian church at a revival at Corydon.  
Eld. J. G. Livingston has just closed a week's meeting at Old Bethel, which resulted in 20 additions to the church.  
The Bates Creek Association meets with the Baptist church here to-day and the ladies are preparing to entertain the large crowd that is expected.  
Filipinos in Europe entreat President McKinley to banish the friars from the Philippines as "a necessary antecedent to moral sanitation." The Philippines are terribly priest ridden.  
The meeting at McCormacks, conducted by Elder George A. Klingman, continues to grow in interest. There have only been two conversions, but the members have been greatly awakened and the church done much good generally. The meeting will continue through this week.  
Rev. J. B. Crouch tells us that 1,000 to 1,200 people gathered at the dedication of Fairview church Sunday, when Dr. W. B. Crumpton preached a powerful sermon on the object and mission of the church. Some 12 or 15 of the best singers from town went out and with the excellent voices there made splendid music to the accompaniment of the organ by Mrs. J. B. Crouch, the violin by Joe F. Waters. Though it was not an all day meeting, many spread dinners and fed a large number. Mr. J. H. Carter had about 50 to eat with him and Bro. Crouch says he had enough for 25 more when they were through.  
Rev. S. A. Owens, of Richmond, will preach the introductory sermon at 10:30 at the Baptist Association here this morning. The organization of the body will then be effected and the regular order of business commenced. The meeting will last two days and 150 delegates are expected. Among the distinguished preachers, who will be present from a distance, are: Rev. T. T. Eaton, editor of the Baptist Recorder, and ex-President A. C. Davidson, of Georgetown College. Miss Mary Hollingsworth, of the Baptist Orphans' Home, Louisville, will also be present.  
Rev. H. C. Morrison has put an end to controversy on his account by withdrawing from the Methodist church, because a stringent law was passed prohibiting an evangelist from going into a Southern Methodist preacher's charge and holding services without the consent of that preacher. He says he wanted to go to Terrell, Texas, in answer to a call, "to preach entire sanctification to thousands of humble people, who, the Lord willing, will meet me there. Notwithstanding this meeting is to be interdenominational, the pastor of the Southern Methodist church at that place has forbidden my coming to preach to the people." The law is on the pastor's side and he didn't want to precipitate a church trial.
